PROFILE SUMMARY

Senior Full-stack JavaScript Developer with over 7 years of experience in developing and maintaining web applications using React, Node.js, and TypeScript. Expertise in designing efficient and scalable database structures, writing clean and well-documented code, and resolving technical issues promptly. Strong collaborative skills, with a focus on delivering high-quality software solutions that meet business requirements. Passionate about staying updated with the latest industry trends and continuously improving the software development process.

KEY SKILLS

- **Programming Languages**: TypeScript, JavaScript (ES6+)
- **Frameworks and Libraries**: React.js, Node.js, Express, Next.js, Vue.js, Vuetify
- **State Management**: Redux, Vuex
- **Web API Development and Integration**: REST API, GraphQL (Hasura and Apollo)
- **UI Frameworks**: Bootstrap, ANT Design, Tailwind CSS
- **Testing and Automation**: Jest, Playwright, Selenium WebDriver, TDD/BDD
- **Database Management**: MongoDB, PostgreSQL, TypeORM, Sequelize, Prisma
- **DevOps and Deployment**: AWS, Docker, Kubernetes, CloudFormation, Ansible
- **CI/CD**: GitLab, GitHub Actions, CircleCI
- **Version Control**: Git
- **Other Skills**: Data Structures and Algorithms, Responsive Web Design, Design-to-Code Translation, Reusable Component Architecture, Performance Optimization, SDLC, Agile Team Collaboration

WORK EXPERIENCE

Senior Software Engineer

ShiftHealth | Remote
July 2020 - Present

- Developed and maintained web applications using React, Node.js, and TypeScript.
- Designed and implemented efficient and scalable database structures, improving system performance.
- Wrote clean, efficient, and well-documented code, adhering to best practices and standards.
- Troubleshot and resolved technical issues and bugs promptly, ensuring smooth application functionality.
- Collaborated with various departments to develop high-quality software solutions meeting business requirements.
- Stayed updated with the latest software development trends and best practices.
- Contributed to the continuous improvement of the software development process, including Agile methodology, code review, and testing.

Software Engineer

Unbird | Remote
July 2019 - June 2022

- Developed a user-friendly drag-and-drop interface, enhancing information organization and user experience.
- Designed and developed a robust notification system, improving communication and user engagement.
- Implemented team permissions and access controls, enhancing security and collaboration.

Freelance JavaScript Developer

Kwhen | Remote
September 2017 - June 2019

- Implemented features that significantly enhanced user experience and engagement on an event curation platform.
- Developed advanced search algorithms and filters, improving search result accuracy and speed.
- Integrated partner APIs to broaden event selection, enhancing user experience.

Software Developer

Andela | Remote
August 2016 - February 2019

- Delivered clean, well-tested code for multiple projects, ensuring software reliability and stability.
- Developed innovative data collection and management systems, streamlining processes and enhancing data accuracy.
- Collaborated with stakeholders to define problem specifications and design effective solutions.
- Engaged in team efforts to identify and resolve software bugs, improving performance and user satisfaction.
- Maintained existing applications and designed new applications, contributing to software portfolio growth and enhancement.

EDUCATION

B.Sc. Computer Science
Nnamdi Azikiwe University, Awka
Second Class Honors, Upper Division

CERTIFICATIONS AND TRAINING

- **Cloud DevOps Engineering** | Udacity | July 2022
